This bulletin is to be prepared annually to provide financial and statistical information relating to the expenditures of Michigan school districts operating K-12 programs. The data are taken from the 1985-86 Annual School District Financial Report, DS-4169.

Caution should be exercised in using these data. Conditions between school districts vary considerably. For example, many districts operate large transportation fleets at considerable expense while other districts do not. An insurance settlement may inflate revenues for a given school year. **Pupil counts in many school districts are affected by provisions of the State Aid Act which allows the counting of memberships in a district other than that which provides the educational services, such as, the counting of memberships of special education pupils in out-of-formula districts where the intermediate school district claims the membership and turn the funds over to the district recording cost; "center" programs where the "receiving" school district records the cost of service, but the "sending" school district claims the membership; and in school districts where the full per capita operating cost is paid for tuition and the pupil is counted in the district of residence rather than in the district providing the educational services.** Sound conclusions can be drawn from these data only when all facts concerning the school districts being compared are known. A glossary of terms used in the headings of the bulletin and other general and specific terms common to school financial data is included.

Table 1 groups the 525 K-12 districts by membership. The state equalized valuation per state aid member has been computed and indicates the position of the group as a whole to the average for all of the districts. Also shown are membership totals, the per capita operating expenditures and the average teacher's salary of each group. Operating expenditures include teachers' salaries, equipment and supplies, etc., but do not include items of a capital outlay or debt retirement nature. Average teacher's salary include salaries of teachers only and not salaries of administrators, principals or supervisors.

The information following Table 1 relates to general fund revenues per pupil by source of revenue and general fund expenditures per pupil by function. Also included are average teacher's salary, number of pupils and state equalized valuation per state aid member listed by school districts. In addition, millage rates for operation, building and site and debt retirement purposes are shown. School districts have been ranked for many of the items included. These 525 K-12 school districts represent 99.8% of the total state membership.
